

**Mobile Bay National Estuary Program  
Management Conference CCMP Priorities**

CCMP	#	Implementation Activities (revised 2006)	TARGET OUTPUTS NEXT 3 YEARS	INDICATORS	OUTCOMES	Year Initiated	Status
<b>HM-B1</b>		<b>Protect or Restore SAV Habitat</b>					
<b>HM-B1</b>	1a	MBNEP will coordinate the production of maps of major SAV concentrations throughout the NEP area for public distribution on a periodic basis to evaluate status and trends.	Production of a comparative map of SAVs over 5 year period	*Light Attenuation *Acres of habitat protected or restored *Shoreline/Riparian changes	Increase acreage of SAV habitat	2001	
<b>HM-B1</b>	1b	MBNEP will coordinate with the CHCT to analyze maps for cause /effect relationships	SAV Analysis report				
<b>HM-B1</b>	1c	MBNEP will coordinate with CHCT and DISL to identify high priority sites for SAV restoration from those areas with healthy or recovering SAV and will implement a coordinated strategy for restoration that takes advantage of volunteer planting efforts. MBNEP/DISL will investigate non-destructive (other than transplanting) methods for growing plants for use in SAV restoration and will monitor and evaluate restoration efforts for success, necessary corrections, and improved techniques and will identify funding alternatives (e.g. marina tax)	One site map for priority site restoration; one SAV restoration project				
<b>HM-B1</b>	1d	ADEM, USACE, AL Port Mitigation Bank, and others will examine the possibility of incorporating priority SAV restoration sites into area mitigation planning strategies					ongoing
<b>HM-B1</b>	2	ADCNR will attempt to expand enforceable "no wake" zones using a targeted approach for critical areas to include areas adjacent to SAV beds and post with signs. In addition, ADCNR will consider developing regulations for "no motor" zones in sensitive SAV areas.					2005
