

**Mobile Bay National Estuary Program  
Management Conference CCMP Priorities**

CCMP	#	Implementation Activities (revised 2006)	TARGET OUTPUTS NEXT 3 YEARS	INDICATORS	OUTCOMES	Year Initiated	Status
LR-C2		<b>Increase Fisheries Resources</b>					
LR-C2	1	ADCNR will continue to develop and monitor artificial reef habitat in appropriate areas of the Mobile Bay estuary through programs such as the "Roads to Reefs" effort. ADCNR will assess effectiveness of program periodically in effort to determine possibilities for its expansion.		*Bottom Dwelling-blue crabs, oysters, flounder * Mid-Water- largemouth bass, red drum, mullet	*Improved fisheries resources	2000	ongoing
LR-C2	2	ADCNR will conduct shell planting, as funds become available, to replenish and expand shell areas in Mobile Bay to increase oyster habitat.				2000	ongoing
LR-C2	3	MBNEP will support ADCNR MRD efforts to continuously examine existing data to determine whether additional limited take and/or no take zones are warranted. MBNEP support will be periodically assessed to determine the effectiveness of its supporting activities.	Assessment Report with recommendations for future fisheries management			2000	ongoing
