Our mission is to promote the wise stewardship of the water quality and living resources of Alabama’s estuaries.

- Funded by U. S. EPA, State of Alabama, and local governments and private interests
- One of 28 “nationally significant estuaries” in the United States
- In existence for 20 years
- Comprehensive Conservation Management Plan (CCMP)
AGENDA

1). Welcome and Introductions
2). Review Minutes/Old Business
3). Watershed Management Planning Update
4). Create a Clean Water Future Campaign
5). Restoration of Mon Louis Island Update
6). Maple Street Clean Up- “Litter Gitter” Project
7). New Business/Discussion
Coastal Alabama Intertidal Watershed Planning & Implementation as of June 1, 2016

Legend

- Priority Conservation Watersheds (non-intertidal)
- Under Development
- Completed Plan Under Implementation
- Priority Watersheds Selected by PIC

$12 million

$2.1 million

FIELD TRIPS - By land or by sea!!

Joe’s Branch

Three Mile Creek
Small Stream Litter Collection

**Purpose** – The purpose of this project is to create a solution for small stream litter collection that enhances water quality and aesthetics throughout a watershed.

**Litter Gitter** - The Litter Gitter is a basket style device moored to the bank via floating booms. The prototype has been tested and a patent has been awarded. Initial tests show that the Litter Gitter functioned as planned and is suitable for a larger scale deployment.
The journey of one thousand miles begins with a single step......
